The Lectern “Modifine”

Present with style

The Modifine lectern combines modernity and functionality in an elegant design. Ideal for conferences, trainings, or presentations – this lectern becomes the centerpiece of your events.

Modular & adaptable

Our modular lectern allows you to respond flexibly to individual needs and evolving technical trends.

Whether it's special requirements or innovative features – with Modifine, you design your presentations in a modular and adaptable way.

The lectern surface can be customized according to your preferences!

Maximum comfort for your speeches

Electrically height-adjustable:

Easily adjust the lectern height to suit your needs.

Integrated monitors (optional):

Enhance your presentation experience with built-in screen options.

Expandable storage surfaces:

Flexible additional trays for laptops and materials ensure optimal organization.
